# Mineral salts

The premium choice for pure, high-performing minerals

At Jungbunzlauer, “No Compromise” isn’t a slogan, it’s the foundation of everything we do.

Our organic mineral salts are trusted in applications where performance is not a preference but a requirement: infant nutrition, pharmaceuticals, dietary supplements, functional beverages, and advanced nutrition products.

We deliver minerals that meet the highest expectations for purity, bioavailability, and functionalities backed by deep scientific expertise and collaborative partnership.

## Why choose Jungbunzlauer minerals?

### Superior Bioavailability & Fully Reacted

Give consumers minerals their bodies can actually use.

Our citrate, lactate, and gluconate minerals deliver:

- Higher absorption vs. many inorganic forms
- Non-GMO, vegan-friendly
- Global pharmacopeia compliance (USP, FCC, Ph. Eur.)

Premium quality that meets modern consumer expectations — without compromise.

### Technical Excellence Across Every Application

Formulation demands precision. We deliver minerals that perform consistently, even in challenging systems.

- Exceptional solubility, neutral taste, and stability
- Ideal for dairy, plant based, beverages, supplements, and infant nutrition
- High-density grades for greater mineral loading
- Granulated options for superior flow, reduced dusting, cleaner processing, and improved tablet performance
- Micronized options for improved mouthfeel and reduced sedimentation

Reliable functionality from bench to full-scale production.

### Consumer Demand That Drives Market Opportunity

Today’s consumers seek more than just minerals. They seek trusted, effective, science-backed minerals.

Jungbunzlauer minerals support leading claims across:

- Bone Health
- Immunity
- Hydration & Electrolyte Balance
- Energy & Fatigue Reduction
- Muscle Function & Recovery

Premium positioning aligned with modern health priorities.
